USER REGISTRATION / MENU AND SECURITY KEY REGISTRATION

PRIVACY ACT OF 1974

AUTHORITY: 10 U.S.C., Section 3013.

PURPOSE: Information will be used to authenticate that the individual is an authorized user or health care provider in a MAMC Health Care or Support System and to update the MAMC emergency notification roster.

ROUTINE USES: Information may be disclosed outside of DOD agencies as outlined in AR 340-21, para 3-2 (Blanket Routine Uses).

DISCLOSURE: Providing information is voluntary; however, failure to provide the information may delay your access to a MAMC Health Care or Support System.

The following information is required before a user can access passworded systems. Complete all fields legibly and in ink.

LAST NAME

FIRST NAME

CONFIDENTIALITY AND PASSWORD PROTOCOL STATEMENT

This document verifies that I have read and understand my responsibilities for safeguarding my password and the integrity of the system(s) I access.

The Privacy Act of 1974 imposes responsibilities to prevent misuse or compromise data concerning individuals. It has three main provisions:

a. **Confidentiality of Information.** Most of the information within the MAMC Health Care and Support Systems is sensitive, personal, medical information. Only authorized persons or agents are allowed to disclose this information. Personnel not involved in a patient's care, in medical research, or with a need to know will not access a patient's record.

b. **Data Integrity.** Patient treatment decisions are made from the health care information. Users of the MAMC Systems are responsible for ensuring that all data entered is accurate.

c. **Data Security.** The third provision of the Privacy Act requires safeguards for confidential and secure records. This entails protective measures for preventing accidental or malicious alteration, destruction, or disclosure of personal information which could effect medical care or the patient's privacy.

I am responsible for following all security related guidelines as outlined in DOD and DA directives. My access code, verify code and password are not to be disclosed. This password code is unique to me. IT MUST BE KEPT CONFIDENTIAL. Every action I make on the system becomes part of an audit trail that will be monitored by the Network Administrator of Systems Manager.

I must memorize my password and will not make or leave a written record of my password.

If I suspect that someone else is using my password, I will notify the MAMC Information Assurance Security Officer (IASO) and requests a new password from the Systems Manager.

If I observe or suspect that anyone is misusing or is not authorized to use MAMC Health Care or Support Systems, I am obligated to report this information to my supervisor or IASO immediately.

I understand that I am specifically prohibited from using any other person's password. I understand that I am also prohibited from attempting to enter the system by guessing or randomly entering passwords.

I understand that my access does NOT, in and of itself, give me authority to disclose patient data to anyone or to access records under false pretenses.

I have read and understand the security guidelines given above, the necessity for safeguarding my password and the integrity of MAMC Health Care and Support Systems. I understand that if I divulge information that is protected by the Privacy Act or my password, I may be prosecuted under the Uniform Code of Military Justice or the United States Code (5 U.S.C., 552a(i)).
